

SAIRA AKHTAR

Full Stack Developer

Rawalpindi, Pakistan | sairah.webdev@gmail.com | +92 3011555373

GitHub: <https://github.com/Saira-akhtar> | Portfolio: <https://saira-akhtar.github.io/personal-portfolio/>

PROFESSIONAL SUMMARY

Full Stack Developer experienced in building responsive, production-ready web applications with **React.js, Node.js, Express.js**, and **MongoDB**, complemented by modern frontend tools like **TanStack Query, Zustand, React Hook Form, and Zod**. Skilled in designing **REST APIs**, structuring databases, implementing **JWT-based authentication** and role-based access, and building reusable UI components through hands-on full-stack projects. IBM Full Stack Software Developer Professional Certificate holder with a strong foundation in UI/UX principles, focused on delivering user-centered applications and continuously growing technical expertise.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Vite, Responsive Web Design

State Management & Data Fetching: TanStack Query, Zustand, React Hook Form, Zod, Axios

Backend: Node.js, Express.js, REST APIs

Database: MongoDB

Tools & Technologies: Git, GitHub, VS Code, Postman

Additional: UI/UX fundamentals (Figma) applied to building usable, well-structured interfaces

PROJECTS & PRACTICAL EXPERIENCE

LearnHub LMS — Frontend Integration (React 19 & Modern State Management) | *React 19, TanStack Query, Zustand, React Hook Form, Zod, Axios*

GitHub link: <https://github.com/Saira-akhtar/learnhub-lms>

- Integrated a React 19 frontend with a JWT-secured NestJS REST API, replacing all mock/static data across 9 pages with live backend calls.
- Built a centralized Axios instance with request/response interceptors to auto-attach JWT tokens and handle 401 session expiry globally.
- Managed client state with Zustand (persisted auth store) and server state with TanStack Query, including caching, background refetching, and mutation-based cache invalidation.
- Implemented form validation with React Hook Form and Zod across login, signup, and profile pages, with real-time inline error handling.
- Built protected and role-based routes (student, instructor, admin) with route guards, an auth-aware Navbar, and a full enrollment flow (enroll/unenroll).
- Extracted a reusable UI component library (Button, Input, Card, Skeleton, Badge) to remove duplicated styling across the app.

StyleHive — Full Stack E-Commerce Web Application | *React.js, Node.js, Express.js, MongoDB*

GitHub link: <https://github.com/Saira-akhtar/StyleHive>

- Developed a full-stack e-commerce application using React.js, Node.js, Express.js, and MongoDB.
- Built REST APIs to handle user authentication, product management, categories, shopping cart, orders, reviews, coupons, and admin functionality.
- Designed and structured MongoDB schemas to support product, order, and user data.
- Integrated frontend and backend through REST APIs, ensuring smooth data flow across the application.
- Implemented a responsive, well-structured interface for a consistent experience across devices.

Tic Tac Toe Game | *HTML, CSS, JavaScript*

GitHub link: <https://github.com/Saira-akhtar/tic-tac-toe-game>

- Built an interactive Tic Tac Toe game using HTML, CSS, and JavaScript.
- Implemented core game logic, including player turns, winning conditions, and restart functionality.

EDUCATION

Bachelor's Degree in Software Engineering / 2022-2026

National University of Modern Languages Islamabad

CERTIFICATIONS

IBM Full Stack Software Developer Professional Certificate — IBM / Coursera / august-2026
